CERS Adapter Release Notes V20140227

Cut Data to Acceptable Lengths

When the CERS adapter transfers data from Accela Automation to CERS, if the data in the following two fields are too lengthy, the adapter can automatically cuts the data lengths to the maximum allowed lengths supported in CERS.

- Court Case/AEO # (918)
- Red Tag Number (913c)

See the following table for detailed information.

Accela Automation				CERS			Description
Field name	Field type	Max length	Location	Element name	Element type	Max length	
Court Case/AEO # (918)	String	Admin-defined	ASI	DocketNumber	String	20	The data exchanged with CERS is limited to the first 20 characters of the Court Case/AEO # (918) field.
Red Tag Number (913c)	Number	Admin-defined	ASIT/RED TAG DETAILS	RedTagNumber	String	5	The data exchanged with CERS is limited to the first 5 characters of the Red Tag Number (913c) field.

For example:

If the Court Case/AEO # (918) field's value is "37-000-19285-111333-788999" in Accela Automation, the passed value will be "37-000-19285-111333-" for DocketNumber in CERS.

If the Red Tag Number (913c) field's value is "201409" in Accela Automation, the passed value will be "20140" for RedTagNumber in CERS.
